| Degree Programs | Minors |
|---|---|
| **Biology** | |
| **Mechanical Engineering** | Minor in Mathematics |

## Benefits of an IUPUC education

- Campus is close to where our students live and work. Unlike graduates of other universities, IUPUC students have lived, worked, and raised families in southern Indiana for generations and they remain in the region after graduation.
- Ability to earn a prestigious, globally recognized Indiana University or Purdue University degree in Columbus.
- An affordable alternative to relocating or commuting to campuses in Bloomington, Indianapolis, or West Lafayette.
- 14.0 student to faculty ratio and 16.0 average class size; personal attention and plentiful access to faculty and administration given the strategically small size of the campus.

## Economic Impact[4]

- IUPUC total annual impact: $56.4 million or 926 jobs supported.
- Students will see a $5.10 return for every dollar invested in IUPUC.
- Taxpayers will receive $1.90 for every dollar they invest in IUPUC.
- People of Indiana will see a $13.00 return for every dollar invested in IUPUC.
